ADAMS STREET LANE CLOSURES BEGIN APRIL 22

PEORIA – The Illinois Department of Transportation announces that Adams Street (Illinois 29) will be reduced to one lane in both directions between Lorentz Avenue and Eureka Street beginning April 22.

The closures are necessary to prepare for the eventual closure of the ramp from northbound Adams to eastbound War Memorial Drive (U.S. 150) as part of the new McClugage Bridge project. This traffic configuration will remain in place until the new bridge is finished.

For the most current traffic pattern changes and other impacts, IDOT has launched a project [website](#). In addition, site visitors can subscribe to receive construction updates and traffic alerts throughout project construction.

The eastbound McClugage Bridge is being replaced after more than 70 years of serving the Peoria metro area. Scheduled for completion in 2023, the new structure will deliver improved capacity and safety, reduced travel times and bicycle and pedestrian accommodations.
