RAMP CLOSURE AT McCLUGAGE BEGINS MAY 3

PEORIA – The Illinois Department of Transportation announces the ramp from northbound Adams Street (Illinois 29) to eastbound War Memorial Drive (U.S. 150) closes May 3.

The closure is necessary for removal of the ramp. Motorists wanting to use eastbound War Memorial from northbound Adams will turn left at the newly installed signal at that intersection (see attached map).

This traffic pattern will remain in place until the opening of the new McClugage Bridge, which is expected in late 2022.

For the most current traffic pattern changes and other impacts, IDOT has launched a project [website](#). In addition, site visitors can subscribe to receive construction updates and traffic alerts throughout project construction.

The eastbound McClugage Bridge is being replaced after more than 70 years of serving the Peoria metro area. Scheduled for completion in 2023, the new structure will deliver improved capacity and safety, reduced travel times and bicycle and pedestrian accommodations.
